Behind the mask.

Seoul-based DJ and producer KUTH creates club-focused electronic music driven by hypnotic grooves, powerful rhythms, and melodic tension.

Formerly part of the electronic duo Voyagers, KUTH is now developing his solo artistic identity, drawing inspiration from Indie Dance, Melodic techno, and Tech house.

His sound combines the raw energy of underground dance music with an emotional, forward-thinking approach to production, built for the dancefloor.

His work includes the solo release “Heywoo,” composition and arrangement credits on Bikini Cactus’s “LIES – KUTH Remix,” and a background in composition as part of Voyagers.
